Subject: Southeast Homicide No. 2019-007

Chief and Commander,

Looped in Commander Choi & Captain Tingirides for awareness appears to homeless related, Captain Spell will direct outreach this week with SLO & Coordinate any efforts in that area near the encampments with HOPE in support of the homicide investigation .

The victim remained at scene causing canopy deployment. There was no community interest and no media present at scene.

On Sunday, March 31, 2019, at 0034 hours Southeast patrol responded to an ambulance shooting at 423 East Lanzit Avenue. Upon their arrival at the scene, LAFD was rendering medical intervention to the victim (male Black approximately 40 years old, remains unidentified at the time of this email). He was subsequently pronounced dead.

The following has been established by one witness and evidence at the crime scene. The witness, who is homeless, resides in a truck at the location. She was standing near her vehicle, conversing with the victim and another unidentified witness. While doing so, the suspect approached (NFD) and engaged the victim in an argument, which escalated to a fight. The victim was armed with a broken broom handle, which was most likely the weapon that was used by the suspect to stab the victim. Items within the crime scene appeared to be thrown about, consistent with the aftermath of a fight. A broken broom stick with blood on its tip was recovered at scene.

The victim will be transported to the Coroners office, where amongst many other things, identity will be established.

A large amount of blood was located within the crime scene.

This incident is homeless related and will be coded as such (M0 code 1218).

A blood trail on the north sidewalk of Lanzit Avenue was located. The blood trail most likely began one hundred yards to the east of the victim's resting location and terminated at the location where the victim came to rest.

Captain Brockway was present at scene.

CRT was not notified because the victim's identity hasn't been established.
